

Unlocking the value of the curated secondary goods market

ATG is the operator of world leading auction marketplaces and auction services, seamlessly enabling bidders from around the world to access a range of secondary goods which have been curated by just under 4,000 auctioneer experts, across two major sectors: Industrial & Commercial and Art & Antiques

The Group powers eight online marketplaces and listing sites using its proprietary auction platform technology, hosting just under 86,000 live and timed auctions each year. Our virtuous circle benefits both auctioneers and bidders; more bidders participating in online auctions results in higher realised prices for second-hand items and in turn attracts more assets to be listed on our marketplaces.
